Dust from your skin  
Must trust, when it scatters  
Only love matters  
It's been overjoyed

Scents and perfumes  
Whence, since your higher fragrance  
Is memory  
Incense and never destroyed

Every stop we've taken  
Is now a wonderous shrine  
Where nature is in order  
Your sense is sensing mine

As I love you  
All the creatures play  
As I love you  
Now it's safe to say  
There's no hang up in our way

The trees in our gaze  
will show us the love that we breath in  
This shouldn't amaze  
They openly love all they are  
And love's all they are

Gifts, to begin  
Bliss, cliffs of expression  
They suit our impression  
and every whim

Taste has got thirst  
Faced, waste, beyond uses  
with so many juices  
Were filled to the brim

Our pleasure's not forsaken  
we cultivate our bend  
More chances re-awaken  
when beginning meets the end

As I love you,  
Now it's safe to say  
There's no hang up in our way  
As I love you

The faith that we build  
Will strengthen our close growing closer  
Till waiting is filled  
We simply remember we are  
where ever we are

Clay that we print  
May stay as we mold it  
but will never hold it  
The promise is long

'Til we're complete  
Will, still is intention  
We still need attention  
to help us along
