Verse 1:

I see you talk talk talking
But I don't hear a sound
I am day dreaming
I am in another town

And now you want me boy
Yes, for your selfish ambitions
To make you feel
To make you feel alive again

Hook:

So I'll stay day dreaming
I'll stay day dreaming
I'll stay away I'll build my walls up brick by brick
(ooo)

Chorus:

I'm not someone to want want want
I'm not someone to talk about
But I'm your very best friend at the very worst times
So you'll keep me around so you can feel,
I'm not someone to want want want
I'm not someone to talk about
But I'm your very best friend at the very worst times
So you'll keep me around so you can feel,

...

Just fine

Verse 2:

I see you walk walk walking
I want you to turn around
I am day dreaming
I am in another town

And now you want me boy

To make you feel
To make you feel alive again

Hook:

So I'll stay day dreaming
I'll stay day dreaming
I'll stay away I'll build my walls up brick by brick
(ooo)

Chorus:

I'm not someone to want want want
I'm not someone to talk about
But I'm your very best friend at the very worst times
So you'll keep me around so you can feel,
I'm not someone to want want want
I'm not someone to talk about
But I'm your very best friend at the very worst times
So you'll keep me around so you can feel,
