[Verse 1]

Systems of pressure  
Blessing my freshest lighthearted breathe  
Deep inside we weave, mental styles deceive  
Try to listen believe, enter my heart my art I spark  
Black markers written on walls, I'm standing so tall  
We ball - sometimes we fall  
Gotta get up, don't trip, Apostle Paul  
Speaking my gospel, do it like this, but life it feels  
hostile  
I - search the skies, I'm doing it everyday  
This is how I shall rise

One more thing...

[Verse 2]

Brain cells react, everytime that I'm putting on impact  
Contact, method explode, let me explain with my raps  
Written in blood, living in water, do everything like the  
daughter  
of Earth - birth, place, turf, sometimes it seems I'm not  
worth  
Anything that I would be, I sing my song so I can be  
free  
Just watch me, clock me  
Liberation is all that I know, my flow

\*harmonizing\*

I got one more thing to say...  
But I don't know how...  
Don't know how...
