VERSE 1:

How did I not see the deceit?
Cruel lies are hidden
Cruel lies and the truth
All too well hidden

VERSE 2:

You're a liar, you're a cheat, you've destroyed me
It's time for my revenge
It is not rape I speak of
I wouldn't give you the satisfaction

BRIDGE 1:

Though they say we all make mistakes
Lying, hiding the truth
In an inward manner
Is such an unforgivable mistake
Yet you're surprised that its true
Obviously you don't know what truth is

VERSE 3:

It wouldn't please me more to see you,
With your throat at the edge of a steel blade
Your lying eyes gouging with a sharp fork
Your entire body being steadily unmade

CHORUS:

Pay for the lies with your life
The lies to me,
The lies to many
Pay for your deceit with emotional violence

No rape at all
Just realisation
Defeat

VERSE 4:

You lied to me, but I wasn't the only one
You told me you loved me, but I was just one
The other deserves the truth,
The ugly truth that you lie to avoid

VERSE 5:

You couldn't find the courage
You could only steer clear of the iceberg
An Iceberg of lies, of hidden truths
You are too cowardly to face it

CHORUS:

Pay for the lies with your life
The lies to me,
The lies to many
Pay for your deceit with emotional violence
No rape at all
Just realisation
Defeat

BRIDGE 2:

The iceberg will melt one day
The truth will unravel
The truth will make you crumble
You will suffer from your own mistake
There will be no need for you to be defeated
You will defeat yourself
