"In My Dreams"

As I lie here, at night
As my eyes give in to sleep
As I dream of you, here in my arms
I'm holding you, loving you

As you sleep there, my love
As your eyes give in to rest
As you dream of me (I dream of you), there in your
arms
I'm holding you, loving you

In my dreams, you're in my arms
In my dreams, my heart is holding you
Feeling you, loving you
In my dreams, you're always there
In my dreams our love will never die
Always you, always love in my dreams

All alone here, I lie
As the darkness falls around
As I think of you, and your warm embrace
I'm home again, ever safe

In my dreams (I dream of you), you're in my arms
(forever more)
In my dreams, my heart is holding you
Feeling you, always you in my dreams
In my dreams
In my dreams
In my dreams
