Going crazy  
Feeling stressed out any how  
So damn lazy  
What's the problem with my life?  
Im still searching  
For the things I wanna do  
Im still dreaming  
For something to coming true

Can someone feel it  
This empty hole

Want to make it  
Want to be what I despise  
Want to make it  
Am I living in a lie  
Taking chelter  
Courtains down  
Have to find out what I want  
To be like  
Wanna make it

Try to fit in  
Try to always be so pleased  
Always smiling  
Cuz my feelings always ceased

Have to move to places  
Gotta get some distance  
From this town  
But I am stuck at no dissision  
All that I've ever done is knuckle under  
Time is moving on and i ain't getting younger
