You lay around, I lay around  
What have you done, what have I done  
You're like it's alright, I'm like it's alright  
Aren't we having fun?

Let's take your mom's car out for a drive  
She won't notice and we'll drive all night  
We're gunna ride  
Ride all night

You wander around, I wander around  
Nothing to do, nothing do to  
You're like it's alright, I'm like let's fight  
Aren't we having fun?

Let's take your mom's car out for a drive  
She won't notice and we'll drive all night  
We're gunna ride  
Ride all night

You're still around, I'm still around  
You missed the signs, you missed the signs  
You're like it's alright, I'm like let's fight  
Aren't we having fun?

Let's take your mom's car out for a drive  
She won't notice and we'll drive all night  
We're gunna ride  
Ride all night
