"Letting You Out"

i'm letting you out
all on my own
can't scare me now
not here at home
you're like a disease
spreading like fire
i'm letting you out
no ain't nothing foolin' me

you ain't allowed here
don't try a comin'
and don't you come near
dogs are a barkin'
i hate you, my god!
why do you try me?
i'm letting you out
and don't you come find me out

down down down
did you really think i would do that?
did you really think I would care?
