we lay there still
in our desire
catching dreams
we can pass right through
your only window
remind me how we met?

i've seen 'em come and go
i've seen many waste their time
the only one i don't mind

i've never had a plan
i've never had a real job
hold me til the morning
or til it falls apart

dare i say
there's only a few
who made their way beside me

and i don't care
ill stick it with you
so take your time
you need to

ill never make you stay
ill never try to change your mind
im not one to persist you

ill swear ill be your friend
even if it don't work out
i've known this since i met you
back at warm house

hold me
closely
slowly
tightly
in your
i've been waiting
patient

to sink back in to you
