### "4 Minutes To Mars"

Visit "[4 Minutes To Mars](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's only four minutes to Mars  
Turns out a light year ain't that far  
It doesn't matter where you are

The moon rotates around the earth  
At 2300 miles an hour  
What does it look like to us?  
Standing still  
The star that you're wishing on might not even exist  
anymore  
But the light it is shining still

Is there anybody out there?  
Anyone in the vicinity?  
Can you hear me?  
Yes I hope I'm interfering  
With you're frequency  
So tell me can you help me  
Can you help me?

It's only four minutes to Mars  
Turns out a light year ain't that far  
It doesn't matter where you are

Four minutes to Mars

You're heart goes around my sun at 36,000 miles per  
hour  
You know you'll burn out as you get closer to me, oh  
The polar ice caps of my heart  
No, they're never receding  
When all of my atmosphere is gone  
Can you hear me screaming?

Is there anybody out there?  
Anyone in the vicinity?  
Can you hear me?  
Yes I hope I'm interfering  
With you're frequency  
So tell me can you help me  
Can you help me?

It's only four minutes to Mars  
Turns out a light year ain't that far  
It doesn't matter where you are

Four minutes to Mars

It's only four minutes to Mars  
Turns out a light year ain't that far  
It doesn't matter where you are

Four minutes to Mars
