Dominoes tipping over when your wind blows
I'm falling down like dominoes
I love the game that you play
Yeah baby I love the way
Your making me go oh oh oh
I'm droppin'

Here I am one of many
Too many to count right now
What I gave wasn't plenty
Plenty enough for you to care about
In a row we're all waiting
Standing straight don't make a sound
I'm one, one of many
Falling to the ground

Dominoes tipping over when your wind blows
I'm falling down like dominoes
You tip me over
Flip me over, over under
Then you let go

Don't stop givin' me
Don't stop giving me your love

Black and white
So pretty
Polka dots so in right now
I'm stacked
So shiny
But I get so nervous
When you come around
I lose faith
I lose balance
Don't know what's in or out
I'm up to the challenge
Then you knock me down

Dominoes tipping over when your wind blows
I'm falling down like dominoes
You tip me over

Flip me over, over under
Then you let go

Don't stop givin' me
Don't stop giving me your love

I love the game that you play
Yeah baby I love the way
Your making me go oh oh oh
I'm droppin'

Dominoes tipping over when your wind blows
I'm falling down like dominoes
You tip me over
Flip me over, over under
Then you let go

Dominoes tipping over when your wind blows
I'm falling down like dominoes
You tip me over
Flip me over, over under
Then you let go

Dominoes tipping over when your wind blows
I'm falling down like dominoes
You tip me over
Flip me over, over under
Then you let go

Don't stop givin' me
Don't stop giving me your
Don't ever stop giving me your love

Don't stop givin' me
Don't stop giving me your
Don't ever stop giving me your love
