#### Intro

I feel brutality and strife  
I've seen colonial life  
I feel the leaders got to change their style.

#### Chorus

Put down those guns and live it up  
We no have no time fi give it up  
We chant them don  
Cos we no need no war  
Come make we spread love in this town  
We rally round with words power and sound  
Blood a run, another life gun don.

#### Verse 1

But we stand for love  
And if you have no love  
You are not from above  
We stand for peace  
And if you want more peace  
Let this world war cease  
Take an example from Bush and Blair  
When they drop those bombs and all those nuclear  
You destroy the world I think you aware  
Is better to live in peace we no need no warfare  
We no need no warfare.

#### Chorus

#### Verse 2

Is like a slap pan mi face, what a disgrace  
When mi see the bigger heads inna rat race  
With them politricks full a dirty base  
Mi just watch them while them climb that dirty ladder  
Them fool my people with them bare propaganda  
After election a bare corruption them a sponsor  
But mi no see a true answer
