"On Our Way"

Visit "[On Our Way](#)" on MotoLyrics.com

I'll believe when the walls stop turning
I'll believe when the storm is through
I believe I hear them say
David won't you stop writing songs

I never wanna shake their hands and stay
I never wanna shake their hands and stay
Oh no, let's go

We are young
We are one
Let us shine for what it's worth

To your place place place
We're on our way way way
We're on our way way way
We're on our way somehow

Hold me close close close
We're losing time time time
We're losing time time time
We're falling to the ground

I'll believe when the sky is burning
I'll believe when I see the view
I believe that I hear them say
David won't you stop dreaming now

And everybody clap your hands and shout
And everybody clap your hands and shout
Oh no, they shout

We are young
We are one
Let us shine for what it's worth

To your place place place
We're on our way way way
We're on our way way way
We're on our way somehow

Hold me close close close
We're losing time time time
We're losing time time time
We're falling to the ground

We are young
We are one
Let us shine for what it's worth

To your place place place
We're on our way way way
We're on our way way way
We're on our way

Hold me close
We're losing time
Hold me close
We're losing time
We're falling to the ground

Taxi driver, sun is rising
Damn the sirens, keep on driving
Flashing light, oh what a night
I miss her bed, I lost my head

And it's sunning, we're still running
For her rooftop, our last stop
Barefoot, naked, don't you let me go

To your place place place
We're on our way way way
We're on our way way way
We're on our way somehow

Hold me close close close
We're losing time time time
We're losing time time time
We're falling to the ground

We are young
We are one
Let us shine for what it's worth

To your place place place
We're on our way way way
We're on our way way way
We're on our way

This night will never end
This night will never end
This night will never end

This night will never end

Hold me close, we're losing time

Hold me close, we're falling to the ground
