Well you look like trouble, you surely do
Well you look like you have been around a time or two
Meet me at midnight, that's when it all goes down
A little place called "The Twilight", on the outskirts of
town

Well you'd look so pretty, ridin' in my Cadillac
Well let's find a cozy little table in the back
Meet me at midnight, they've got the coldest beer
around (Ice cold)
A little place called "The Twilight", on the outskirts of
town

Well there's nothing like that Twilight crowd
They like to play the jukebox loud
It's the hottest honky-tonk around
A little place called "The Twilight", on the outskirts of
town

Ah, here come them boys!

Well, there's nothing like that Twilight crowd
They like to play the jukebox loud
It's the swinginest honky-tonk around
A little place called "The Twilight", on the outskirts of
town

Well this party's over, and it's time to go
I'll be here tomorrow night with a girl I hope will show
Meet me at midnight, and we'll burn that dancefloor
down (All the way down baby)
A little place called "The Twilight", on the outskirts of
town

I'll see you tomorrow night baby
