The Wolf Gang
"Suego Faults"

You wait so long to ï¬nd
Deï¬ne your body by the lights of the circus show
I try to understand
But you say logic is a thing that I will never know

Two can play the games you play
Where will you go running when the crowds leave?
Travelling all on your own
You say you're strong but I know everyone bleeds
I want to know if you'll go with me to Suego Faults

It's hard to draw the line
And walk across it when you can't see the safety net
And everywhere I go
Everybody living in someone else's debt

Two can play the games you play
Where will you go running when the crowds leave?
Travelling all on our own
The world seems small when I have you beside me
I want to know if you'll go with me to Suego Faults

Running to Suego Faults
Running to Suego Faults

Two can play the games you play
Where will you go running when the crowds leave?
Travelling all on your own
You say you're strong but I know everyone bleeds
I want to know if you'll go with me to Suego Faults
