If you can't do it when you're young; when can you do
it?

If you can't do it when you're young; when can you do
it?

I don't need much of your time
Just a little attention
If you remember TV as your prime
Then here's my good intentions

If you can't do it when you're young; when can you do
it?

If you can't do it when you're young; when can you do
it?

I don't need much of your funds
I get paid for my imagination
In this dark, dull, dusty island
I get no stimulation

If you can't do it when you're young; when can you do
it?

If you can't do it when you're young; when can you do
it?

If you can't do it when you're young; when can you do
it?

If you can't do it when you're young; when can you do
it?
