I find my self killing thoughts in me
Is all this really meant to be
Is all of this the devil's sympathy

Once I got drunk
And I hit the floor
Head on the ground
Can't take no more
Then everything came clear to me

The day that I met you (2x)
The dream that saved me
The day nothing mattered anymore

I feel alive and it's down to you
I could do anything that I want to do
All this was meant to be
I feel lucky now
You're a part of me

The day that I met you (2x)

The dream that saved me
The day nothing mattered anymore

I carved your name in a piece of wood
To make it last, to make it feel good
I carved your name in a piece of wood
To make it last, to make it feel good
I carved your name in a piece of wood
To make it last, to make it feel good

The day that I met you (2x)
The dream that saved me
The day nothing mattered anymore
The day that I met you
The day that you kissed me
The day nothing matters anymore (2x)
