[Verse]

Take my arms away
Tie 'em up around your waist
Lay you down in the sun

[Chorus]

'Cause you're the only one that has control of what you
need
And there's no sense in the way you worry all your life
Oh so how you gonna grow if you don't know you're
dragging you down
You'll waste the rest of your days if you worry all your
life

[Verse]

We get older all those days
In the back garden
The leaves are dry wheres the rain
Wash it all away

[Chorus]

'Cause you're the only one that has control of what you
need
And there's no sense in the way you worry all your life
Oh so how you gonna grow if you don't know you're
dragging you down
You'll waste the rest of your days if you worry all your
life
