Keep it buried inside
A jealousy so hot
I know you'd never lie
But I'm terrified

I don't even try
I just lay in the same spot
A heart synchronized
With compromise

To see someone embrace you (sorrow)
Sorrow's the seas of my heart (heart)
(x2)

I just need to talk
I ask you for a short walk
Under forgiving skies
And satellites

I don't even try
I just lay in the same spot
A heart synchronized
With compromise

To see someone embrace you (sorrow)
Sorrow's the seas of my heart (heart)
(x4)
