Your pale face, stiff, blank,  
Gives me no satisfaction, but a chance,  
To start over again, to rid this mistake.  
Once my life was taken over, now yours has been  
taken,  
I want to bury this, rip this chapter out.

Souless, lifeless being.  
Gone, dragged from within.

Take a match, your miserable life.  
Burn away the past, bring back the future.  
I can join this puzzle, back together.  
No one can replace you, they can't be you,  
Which gives me a hope, a chance in this hell.

A chance in this hell.

Raped, nothing,  
Left to stick this back together,

Burn this down,  
Rip it out.
