Song: "Unwelcome"

Album: Life's Interpretation

Wouldn't you like to know What this, what this is all about Doesn't it ever show That you, that you can't accept the facts You walked out on me Now you, now you regret leaving me all alone You lost all my respect And you, and you cry by my door

## Chorus:

What do you expect me to do now You wasted all your welcome I'd like to make you feel how I felt when you said our love was done

Nothing in the world works your way

Just leave, just leave it alone Things you left behind Don't mean, don't mean a thing anymore You said you never needed me Why you, why you still here You lost all my respect And you, and you cry by my door

(Chorus)

## Bridge:

It doesnÂ't really matter anymore So why donÂ't you just proceed To the things that you use to do Cause I donÂ't really look forward to The times that we used to meet Please just leave Cause today all I see Is another memory

(Chorus 2x)
