Go fast
Go slow
Go sly
Go low
Where the hell you wanna be?
All systems intact
The red and the black
Black eventually

Go fast
Go slow
Go sly
Go low
Where the hell you wanna be?
All systems intact
The red and the black
Black eventually

Count the numbers and the words
And the numbness in return

Go fast
Go slow
Go sly
Go low
Where the hell you wanna be?
All systems intact
The red and the black
Black eventually
Get fat and waste
Get smashed in the face
Where the hell you wanna be?

Go fast
Go slow
Go sly
Go low
Where the hell you wanna be?

Count the numbers and return
Count the numbers and the words

And the numbness in return
They go 4-3-2-1

Go fast
Go slow
Go sly
Go low
Where the hell you wanna be?
Where the hell you wanna be?

All systems intact
The red and the black
Black eventually
Go sly
Go low

Count the numbers and the words
And the numbness in return
They go 4-3-2-1

If it only means
To sing loud
It's only trivia
So don't freak out
