"Luna"

I am the sunlight,
The strain on your throat,
An intense response,
I am your echo.
I am your feeling,
Your focus,
I am your Luna,
You are my home.
Travel the sound.
Make your way back.
You are the lonely one,
But we're lonely with you.
We're with you.
Thicken our senses.
Lighten our eyes.
You remind us that there are answers,
They will come with time.
I can't breathe in your stare.
Reactions, repercussions.
I am affection and its effect, reincarnation.
The invisible barriers evaporate the goals you set,
Expectations.
I am not immune to your charm.
