I was a fish trapped in a bowl of water.
I was made to look the fool.
And though I wanted to I never caught her.
Insted I drowned there in my bowl.

I could die for you, but you wouldn't even care about it
I could die for you, but you wouldn't even care about it

She had a line for every situation.
Knew exactly what to say.
I had no time for proper preparations.
It could have gone out either way.

I could die for you, but you wouldn't even care about it
I could die for you, but you wouldn't even care about it

If only I could synchronize it.
All we need is a stablizer.
But it doesn't seem blue right, for now.
And thats it.

I was a fish trapped in a bowl of water.
I was made to look the fool.
And though I wanted to I never caught her.
Insted I drowned there in my bowl.

I Could die for you, But you Wouldn't even care about It
I Could die for you, But you Wouldn't even care about It
I Could die.....
I Could die.....
