Don't be so shy girl come get close to me  
Your hungry eyes they're beckoning me  
You've got your finger wrapped around me  
Just let me taste the inside of your teeth

I dont know what to do  
'Cause I cant keep my hands off you

Her heart is golden and it sings  
24 carat in your dreams  
Let's let the sheets just do their thing  
Girl won't you come and sin with me

Come on sweetheart just tell me one thing  
How do you do the thing that makes me scream?  
I'll crawl to you upon my hands and knees  
I'm begging you to take you off your feet

Now let's just count to four  
And we'll just shut your door

Her heart is golden and it sings  
24 carat in your dreams  
Let's let the sheets just do there thing  
Girl won't you come and sin with me

If these sheets could sing  
They'd tell tales of sin  
And stories of your former glories  
Girl every guy knows where you've been  
X4

Her heart is golden and it sings  
24 carat in your dreams  
Let's let the sheets just do there thing  
Girl wont you come and sin with me
