I've got the shivers and shakes, for goodness sake.  
I'm a broken, bloody mess, and I don't think she'll  
make it.  
Because I said so.  
Because I said so.

I've got the blues, from the soles of my shoes,  
Up to the tip-top of my tongue, where it's battered and  
bruised.  
Because I said so.  
Because I said so.

Now From the get go, this is where it gets so Out of  
Control.  
Out of Control.  
Out of Control.  
"No" is kind of vague.  
Vague is opaque!  
Well, Maybe I can take it- just because I said so.

Just because I said so.  
When I'm lying and cheating.  
It's cause I said so.  
When I'm fast on my feet.  
When I'm back in the business of breaking hearts while  
they're beating.  
It's cause I said so.

I've got the shakes- they're keeping me wide awake.  
Wont you stammer, little glamour, when I break you?  
Because I said so.

Oh, I insist. (Operation Medical)  
With a true iron fist. (Feels so synthetic)  
Get ready, little steady, When I kiss you. (Schizophrenic  
running around, it's so poetical)  
Because I said so.

Now From the get go, this is where it gets so Out of  
Control.  
Out of Control.  
Out of Control. (Schizophrenic running around)

"No" is kind of vague.  
Vague is opaque! (Romeo)  
Well, Maybe I can take it- just because I said so.

Just because I said so.  
When I'm lying and cheating.  
It's cause I said so.  
When I'm fast on my feet.  
When I'm back in the business of breaking hearts while  
they're beating.  
It's cause I said so.

Get it together, or I'll do you one better!  
Wont you testify?  
Wont you testify?

Get it together, or I'll do you one better!  
Wont you testify?  
Wont you testify?  
Doctor, Doctor, my baby's got a fever, and she's got to  
be cured.  
Doctor Doctor, My baby's got a fever and the scruples  
say she's yours, but my heart will never leave her  
alone.  
I'll never leave her alone.  
I've never seen her so cold.

Now From the get go, this is where it gets so Out of  
Control.  
Out of Control.  
Out of Control. (Schizophrenic running around)  
"No" is kind of vague.  
Vague is opaque! (Romeo)  
Well, Maybe I can take it- just because...

Doctor, Doctor! My baby's got a fever!

Just because I said so.  
When I'm lying and cheating.  
It's cause I said so.  
When I'm fast on my feet.  
When I'm back in the business of breaking hearts while  
they're beating.  
It's cause I said so.
