

This Holiday Life

"Don't Fight The Friction"

Visit "[Don't Fight The Friction](#)" on MotoLyrics.com

You love the motion if it goes your way
When it turns around, why do you stay?
You fight the friction but find it your friend
Burns like it should, but heals in the end
This is the end, let it begin, let it begin

You are breaking down (x2)

Words are the books that no one can read
Fate is the blood, just what you need
Don't fight the friction, call it your friend
Turn in the words and start from the end
This is the end, let it begin, let it begin

You are breaking down (x3)
We are breaking down
