Don't stand up, you might fall down.
It just feels so right (just stop pretending).
Don't stand up, you might fall down.
It just feels so right (just stop pretending).

It's all in the way you talk.
The right things, that you say.
So, be careful where you walk,
the right steps, that you take.
And you won't be the only one who's saying your lonely
now.
It's all in the way it looks.
What will you do now?

Don't stand up, you might fall down.
It just feels so right (just stop pretending).
Don't stand up, you might fall down.
It just feels so right (just stop pretending).

Failure is everything.
If you move, you might get hurt.
Success isn't guaranteed.
So stay down, it could get worse.
But nothing is everything and guaranteed to get you
now.
It's all in the move you make.
What will you do now?

Don't stand up, you might fall down.
It just feels so right (just stop pretending). [x4]

So we hide. So we hide. So we hide. [x2]

Don't stand up, you might fall down.
It just feels so right (just stop pretending). [x4]
