Hello I'm Ms. noncommittal,  
you won't see at first, it takes a second or.....  
Men yeah they're nice sometimes they buy me fine  
wine and pine  
Then comes the ring oh no I thought I wanted you

And I'm glad I waited for you  
Even though it was temporary  
In time you will understand  
It was perfect for us right then

Hello I'm Ms. broken hearted  
Love at first sight  
It takes a drink or...  
Soon you'll be asking me if we are meant to be  
Then comes philosophy  
Oh no what did I do

And I'm glad I waited for you  
Even though it was temporary  
In time you will understand  
It was perfect for us right then

Hello I'm Ms. over you  
You turn me off  
It took a look or...  
Soon you'll be calling me, possibly stalking me  
Then comes the ugly part  
Why don't they go away?

I think he's my type  
This one's the one  
What's your name?  
Yeah let's get together  
Seriously, I think this one's the one  
Yeah give me your number  
He has everything I want  
If I could draw a list, this guy would be it  
He's Mr. right now
