Cold night, somebody singing  
suddenly the dorbell ringing  
Then she came throught my door  
Fallin' on the kitchen floor  
I feel helpful i feel blind  
lonely nights and wasted time

Slowly slowly

Im fading away

I wait, you cry, love dies  
Everyone and everybody lies

My soul on fire,  
My heart don't lies  
Everyone and everybody lies

Hei girl i can see your lies  
Right beind your deep blues eyes

Come closer to the bone

Write my name in to the stone

I wait, you cry, love dies  
Everyone and everybody lies

My soul on fire,  
My heart don't lies  
Everyone and everybody lies
