I met you in 2008  
This time was very fast  
You looked so nice when smiled at me  
Oh GOD, I have this girl get to know  
She smelled so nice and naughty glances  
or I have dreamed yet ?  
We all know what happens next  
butterflies and ex. kick my ass

Smile like you care  
(nobody do it better than you)

Between us there was a passion  
All we knew was the satisfaction  
The first kiss and on your diary  
We can read that dreams come true  
Now we have only memories  
Thousands of miles of separation  
Those who think that was a waste of time  
I can say that she is still in my dreams.
