My skin is opaque  
Like white seaweed  
Shallow and weak  
I have no feeling

See through me  
(nothing ever makes it through)  
See through me  
(even though i promised it)

Most worthless shell  
Like a ghost in a dream  
Cantisending life  
Like satin white sheath

Can I ask you something?  
Do you see me near you?  
Slowly going over it  
Alkali

You make it all clear  
Nothing makes it better  
You make it all clear  
Nothing makes it better  
You make it all clear  
Nothing makes it better  
You make it all clear  
Nothing makes it better

Can I ask you something?  
Do you see me near you?  
Slowly going over it  
Alkali
