Have you lost your faith  
Did you dig your hands in too far  
Did your halo last  
Or did it fade

Now did you want it bad  
More than the sun  
I figured out denial

Feel the will of pain  
Hits like metal rain  
Head just too far gone  
Fuck it just give me more

Did you shift your anger  
Have you gained more by speed  
Did you finally scrape bone  
Or does your soul seethe

Now did you throw it all away  
More than the last time  
I figured out denial
