We take some dancing with among our friends  
Just dancing, dancing, dancing till this music ends  
All night in the corner of my eye  
Your face keeps kissing me goodbye

(Chorus)

It's just another fantasy  
It keeps on coming after me  
I close my eyes but I still see  
It's just another fantasy  
It takes some time to find our way in flashing lights  
Always pretending it's just one of those nights  
Instead of finding out if you and I are friends  
Just dancing, dancing, dancing till this music ends

(Repeat Chorus)

It keeps on coming after me  
I close my eyes but I still see  
It's just another fantasy  
Oh I need another fantasy  
I need another fantasy, I need another fantasy  
I need another fantasy, I need another fantasy  
I need another fantasy (It keeps on coming after me)  
I need another fantasy (It keeps on coming after me)  
I need another fantasy (It keeps on coming after me)  
I need another fantasy (It keeps on coming after me)  
I need another fantasy (It keeps on coming after me)
