I'll never give up this fusing and fighting
I made my bed with no place to lie in
Whenever I try I get stuck in trying
And I wonder if the earth is dying
Take this for what it's worth, step lightly on the earth
Take this for what it's worth, step lightly on the earth

(Chorus)
Good Gosh
Oh, oh, just keep away
Good Gosh
Is this simplicity
Good Gosh
Oh, oh just keep away
Good Gosh
You said simplicity
I'll never get close keeping my distance
I'm too far away to make a difference
Whenever I try I get stuck in trying
I wonder if the earth is dying
Take this for what it's worth, step lightly on the earth
Take this for what it's worth, step lightly on the earth

(Repeat Chorus)

What's this?
Our vision is amiss
What's this?
Our bodies are amiss
Better spray on some of this
What happens when it gets like this?
What happens when it gets like this?
What happens when it gets like this?

(Repeat Chorus x2)
