I have seen my future die  
My whole past as well  
That hurricane she knew my name  
And tonight just feels like hell

You left me  
Wanting  
So much more  
When your love has gone away  
It's a long goodbye

Sometimes I see you dancing there  
In the fading light  
But when I look again you've gone  
The poppies all run wild

You left me  
Wanting  
So much more  
When your love has gone away  
It's a long goodbye

I screamed with the wind  
I howled at the rain  
I even prayed  
But nothing I do and nothing I say  
Will bring you back again

A thousand questions never asked  
I'm left wondering why  
So many secrets never shared  
Guess I'll keep them 'til I die

You left me  
Wanting  
So much more  
When your love has gone away  
It's a long goodbye
