Sit and watch the telephone
make believe I'm on my own
Things you said hang in the air
Two's no fun if one don't care

I've got this feeling that our love lies bleeding
(I've got this feeling)
I've got this feeling that our love lies bleeding
(the sharpest feeling)

I'm hoping that I'm not too late
Can't afford to hesitate
Neon signs of strange desires
Reflect the coldness in your eyes

I've got this feeling that our love lies bleeding
(I've got this feeling)
I've got this feeling that our love lies bleeding
(the sharpest feeling)

Sneakies on the party line
R.S.V.P.s some other time
I know she will my silent friend
Still hurts to know this is the end

I've got this feeling that our love lies bleeding
(I've got this feeling)
I've got this feeling that our love lies bleeding
(the sharpest feeling)
I've got this feeling that our love lies bleeding
(I've got this feeling)
I've got this feeling that our love lies bleeding
(the sharpest feeling)
I've got this feeling that our love lies bleeding
(I've got this feeling)
I've got this feeling that our love lies bleeding
(the sharpest feeling)
