I can see the pressure's on you
It's affecting everything you do
You want out, you want out

Did you know it tears me in two
To obsess on everything you lose
You want out, you want out

I'll keep you waiting
Where this life is so unfair
You want out, you want out

Wrap my fingers around your neck
'Till the shadows are dancing around you now
Fingers only to track you down
Wait for someone to pull you above the rest

Take this pain from me
(I let you walk away, I know, I know)
Take this pain from me
(I let you walk, take this pain from me)
Take this pain from me
(Chasing out your wicked suffering)
Take this pain from me
(Maybe free me now)

I'll be too far away from you
To wonder anything, anything you want

Everytime I think of you
(Eyes are open) Eyes are open now
All the things we've had to do
Eyes are open, eyes are open

Take this pain from me
(I let you walk away, I know, I know)
Take this pain from me
(I let you walk, take this pain from me)
Take this pain from me
(Chasing out your wicked suffering)
Take this pain from me

(Maybe free me now)

We all have, we all have someone
You want it, you want it more

Leave me now

Everyday you cry over me
You said to me that you can't be left alone
Everything that comes to mind
Will help you find
That's the last night I see you
Everything you wanted is over now
