

## Three Degrees, The "I Do Take You"

Visit "[I Do Take You](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I do  
Take you for the rest of my life  
Through sickness and through health  
Through good times and through bad  
For richer or for poor  
To cherish and to love  
We kissed and then became man and wife

Baby  
Years from now we'll never regret  
Oh, how could we forget  
All the vows we made  
Until death do we part

I do  
Take you for the rest of my life  
Through sickness and through health  
Through good times and through bad  
For richer or for poor  
To cherish and to love  
We kissed and then became man and wife

Baby  
Years from now we'll never regret  
Oh, how could we forget  
All the vows we made  
Until death do we part

Oh, how could we forget  
All the vows we made  
Until death do we part
