Hey Joe, let me make a few suggestions  
Don't move too fast if you want to make connections  
Time out for a little conversation  
Take her if you're looking for a sweet sensation

Hold on, I'm a lady who knows better  
Don't play no games if you really wanna get her  
Fools rush, a wise man takes love easy  
Lay back, and make sure you don't go jumping back up!

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun  
Jump the gun, jump the gun

Hey boy, you better ease down to it  
Move up close, leave enough room to do it  
She'll tell you if she's feeling good and ready  
You'll know and she'll show you how to come and get it

Hey Joe, said I hope that you hear me  
It ain't so hard if you wanna get near me  
Treat me just the way you treat that lady  
Lay back, and be sure you don't go jumping back up!

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun, jump the

gun

[Interlude]

Hey boy, you better ease down to it  
Move up close, leave enough room to do it  
She'll tell you if she's feeling good and ready  
You'll know and she'll show you how to come and get it

Hey Joe, said I hope that you hear me  
It ain't so hard if you wanna get near me  
Treat me just the way you treat that lady  
Lay back, and be sure you don't go jumping back up!

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun, jump the  
gun

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun, jump the  
gun

You gotta walk before you run  
Don't count on two before there's one  
Don't burn your bridge until you're done  
Jump the gun, jump the gun, jump the gun, jump the  
gun
