"Red Light"

Visit "[Red Light](#)" on MotoLyrics.com

Did I give you the illusion?
I was looking for a one night stand
Now I see a red light
Now listen, baby, I'm confused now
'Cause I felt the chance for something strong
Ohhh!

Red light
Why is it you're giving me a red light?
I remember what you did me last night
Now you say you have to go---
Oh, hold tight
If you wanna take it, then it's alright
Won't you see I never run a red light
But baby, I'll be with you

Waiting for it to change
A red light
Waiting for it to change
A red light
Waiting for it to change
A red light
Waiting for it to change

Now it's amazing, it's a wonder
How a night can turn your head around
Now I see a red light
I just love to know you better
Maybe find a way to make it right
Ohhhh!

Red light
Why is it you're giving me a red light?
I remember what you did me last night
Now you say you have to go---
Ohh, hold tight
If you wanna take it, then it's alright
Won't you see I never run a red light
But baby, I'll be with you

[INTERLUDE]

Now I see a red light
Now I see a red light
Now I see a red light
Now I see a red light
Now I see a red light
Now I see a red light

Red light
Why is it you're giving me a red light?
I remember what you did me last night
Now you say you have to go---
Ohhhhh, hold tight
If you wanna take it, then it's alright
Won't you see I never run a red light
But baby, I'll be with you

Oh, red light
Red, red, I said a red light
Red, nothing but a red light
And baby, I'll be with you---
I said, a red light
Red, nothing but a red light
