Dont you ever wonder, askin' why
Why it kinda feels life is passin' you by
Do you ever get mad, do you ever cry
Cry, cry, cry
Cry, cry, cry

Do you ever loose it, ever get lost
Ever have the days everythings pissin' you off
Do you ever stand there
Close your eyes and ask
Why, why, why
Why, why, why

U & I
Baby we're ok cause we're in it for the long run now
U & I
Can share the bad days, everything is gonna be just
fine
U & I
We are as one gonna fight all the way
Our love holds strong through every day
When it's U &
I, I, I
I, I, I

If you ever feel like your alone
Deep in the night when nobody is home
You just call me, pick up the phone and say
Hi, hi, hi
Hi, hi, hi

U & I
Baby we're ok cause we're in it for the long run now
U & I
Can share the bad days, everything is gonna be just
fine
U & I
We are as one gonna fight all the way
Our love holds strong through every day
When it's U &

If you ever feel nothings going your way
If you're ever feeling like running away
Don't you worry baby cos I'm here to stay with you
With you

Chorus

Baby U & I

Baby we're ok cause we're in it for the long run now

U & I

fine

U & I

We are as one gonna fight all the way

Our love holds strong through every day when it's U & I

U & I

Baby we're ok cause we're in it for the long run now

U & I

Can share the bad days everything is gonna be just
fine

U & I

We are as one gonna fight all the way

Our love holds strong through every day when it's U &

I, I, I

I, I, I
