

Tiger Lillies, The "Normal"

Visit "[Normal](#)" on MotoLyrics.com

Normal the trouble, normal the fear
Normal the distress, normal the tears
Normal the yearning when you go away
Normal, you want them to stay
And these tears that run down your face
Hide them, it's a disgrace
Normal, your blunting of mind
Normal, your lust and normal, you're blind
And normal, you crave for what you can't have
Normal, you're feeling sad
And these tears that run down your face
Hide them, it's a disgrace
Normal, your decline and slide
Normal, your loss of pride
And normal, you want to scream
Normal, you're a machine
And these tears that run down your face
Hide them, it's a disgrace
A disgrace, a disgrace
A disgrace, a disgrace
