Time passing by slowly fades into past
Please don't turn back, smile to me, once again...
I drown!

Here comes again
The sound of silence
Is crushing my aim
Only a portrait left on the wall
Deceit by some fate that doesn't exist

Can you hear me?
Try to touch me
Won't you help me?
(I'm here for you)
Coscience fading
Into coma
I'm not ready
(Light this last hope)

Can you hear me?
Try to touch me
Won't you help me?
(I scream for you)
Coscience fading
Into coma
I'm not ready
(So take my hand)

For everything I told you
I'm not gonna get a break!
You were the only reason
My sun, the moon and stars

Please!

Show me the path cause I'm waiting for you
Feeling your breath on my neck
I see you tonight in my dreams you're so real
Let me believe in you

And if I could

Find a meaning
To this sorrow
(A cross for me)
Don't be late
Send me a sign
Hold me tight
(Just dry my tears)

And if I could
Find a meaning
To this sorrow
(A cross for me)
Don't be late
Send me a sign
Hold me tight
(Just dry my tears)

All my certainties are lost
Love is no more
I can hear their voices
Why can't the sky stop talking about you?
All my certainties are lost
Love is no more
I can hear their voices
Why can't the sky stop talking about you?

Show me the path cause I'm waiting for you
Feeling your breath on my neck
I see you tonight in my dreams you're so real
Let me believe in you
