Lost and confused in the middle of the night
Wondering whether I should put up a fight
Bring me back the signal that is light
Fuck god he can't save me from this life
Hate and frustration is a sign of might
Yet caring to much is just giving up on life

Don't stop don't listen this is
Not a fucking sign from heaven
Turn around this is happening
Believe me because I fuckin made it
This is the night we fall asleep and die
So just fuckin believe it cause
It's not my fault

Breathe slowly, breath deeply
This wont last long
Breath faster, think quicker
Die tonight
Breathe slowly, breathe deeply
Nightmares fade
Breathe faster, breathe quicker
It ends tonight

Think quick and look around
You're living in a nightmare
Tonight it's only you and me
And I'm the fuckin sin
It gets harder to live faster
So give up while you still can
You insincere fuck

Breathe slowly, breath deeply
This wont last long
Breath faster, think quicker
Die tonight
Breathe slowly, breath deeply
Nightmares fade
Breathe faster, breathe quicker
It ends tonight

Everything is black I miss you terribly
Will I ever get home tonight's the night
Everything is black I miss you terribly
Will I ever get home tonight's the night
