My stick, I just love my stick
Mmm, my stick, I just love my stick

Girl, your ride is bad but U can't compare
2 my baby black Cadillac, oh so rare
Take a vacation, I don't care
Cuz I can get some simulation anywhere

U just come 2 quick, I'd rather work my stick
Get a little satisfaction, work the stick in my ride
U just come 2 quick, I'd rather work my stick
Get a little satisfaction, work the stick in my ride {x3}

Girl, U come 2 quick, much, much 2 quick
Girl, U come 2 quick, I'll just work the stick

Offer me your body, I have 2 pass
Cuz every time we make love, U run out of gas
Girl, my car's so bad it runs on H2O (Oh)
No, U can't compete, it's got the cruise control (No)

U just come 2 quick, I'd rather work my stick
Get a little satisfaction, work the stick in my ride
U just come 2 quick, I'd rather work my stick
Get a little satisfaction, work the stick in my ride {x2}
Everybody
Get a little satisfaction, work the stick in my ride

Girl, U come 2 quick, much, much 2 quick
Girl, U come 2 quick, I have 2 work the stick

I've been drivin', baby, since the age of 13
I'm the baddest driver U've ever seen (Oh)
U know I like it fast and I like it slow
Sometimes I let the top down when I wanna let go
(Oh, everybody sing the song now)

U just come 2 quick, I'd rather work my stick {x3}
Get a little satisfaction, work the stick in my ride {x2}
Everybody
Get a little satisfaction, work the stick in my ride {x2}

Break down

What time is it?
(Well, your car's 2 slow, baby)
I said "What time is it?"
Oh
Band
Yeah, that's right
Oh
Oh no

U just come 2 quick, I'd rather work my stick

Oh {x2}

Somebody bring me a mirror so I can uh...
What song we on?

U just come 2 quick, I'd rather work my stick
Get a little satisfaction, work the stick in my ride {x9}
(Oh)

What time is it?
I'm just alright, oh no
Yeah ooh, oh
I don't need U, baby, I'll just work the stick in my ride,
yeah ooh
I don't need your action, baby
Get a little satisfaction, work the stick in my ride {x4}
Sing it
Get a little satisfaction, work the stick in my ride {x4}
Everybody

U just come 2 quick, I'd rather work my stick {x3}

It's about time 2 go (No)
I said I don't need U girl, hey
Somebody bring me a mirror
So I can look at my stick, hey
Alright
U wanna see it?
Should I take it out?
Take it out, man
Hey
Later y'all
