

Times Like These

"Only Just Begun"

Visit "[Only Just Begun](#)" on [MotoLyrics.com](#)

As we're growing up and learning from our past
Times are getting better, the best we've ever had
I can't see myself with anyone but you
Life gets hard sometimes but we'll just push on through

We're breathing, so let's rest our hearts tonight
And have a little fun
I'm singing, "it feels good to be alive"
We've only just begun, we've only just begun

I've done a lot of things
I'm really not so proud of now
But you were always there to work it out!
Out somehow
Something happens when I see your face
Things start getting clearer, I know I'll be okay

We're breathing, so let's rest our hearts tonight
And have a little fun
I'm singing, "it feels good to be alive"
We've only just begun, we've only just begun

We'll rest our hearts and hope for the best tonight
We won't give up on ourselves without a fight
We'll rest our hearts and hope for the best tonight
We won't give up on ourselves (without a fight!)

We're breathing, so let's rest our hearts tonight
And have a little fun
I'm singing, "it feels good to be alive"
We've only just begun

We're breathing, so let's rest our hearts tonight
And have a little fun
I'm singing, "it feels good to be alive"
We've only just begun
