I felt in love once upon a time  
Meet you in Miami and New York  
You brought me true love but then give me more  
So don't go breaking my heart

I got the key, the fire, and the secret  
You took your distance from me  
Nobody knows how mapin is wrong with  
Nobody's saving my heart

Don't walk away, no don't look so far  
You have to lie down with me  
Don't walk away just so look so far  
I need you to touch me now

I got the key, the fire, and the secret  
You took your distance from me  
Nobody knows how mapin is wrong with  
Nobody's saving my heart

No no nobody no no nobody, bo bo bo body..  
No no nobody no no nobody,  
Nobody's saving my heart
