Where do I start, where do I begin  
About this fucked up situation that I've put myself in  
You need a lover and I need a friend  
You needed this to start, I didn't know that it began

So back off baby get out of my face  
Please just give me some space  
Well you never did nothin' but leave a bad taste  
And I'd only stand in your way

Tried to lay it down, tried to be clear  
You tell me you'd turn, turn, turned a deaf ear  
I can't help the way that I'm so sincere  
But I think you better step because you're standing too  
near

So back off baby get out of my face  
Please just give me some space  
Well you never did nothin' but leave a bad taste  
And I'd only stand in your way

Get out of my face  
Get out of my face  
Get out of my face  
Get out of my face

Just take it down, take a deep, deep breath  
Get some perspective on yourself  
If you still believe that I'm leading you on  
Then baby go ahead, tell me to go to hell

So back off baby get out of my face  
Please just give me some space  
Well you never did nothin' but leave a bad taste  
But I'd only stand in your way

So back off baby get out of my face  
Please just give me some space  
Well you never did nothin' but leave a bad taste  
And I'd only stand in your way

You never hear what I say  
So back off baby  
Back off baby  
Get out of my face  
Get out of my face  
Get out of my face  
Get out of my face
