You Dynamite, You Dynamite

Dynamite!

Hey! Baby when you kiss it's dynamite!

Hey! Baby when you hug and hold me tight

I just explode like dynamite

If I might do all the things

I'd love to do tonight

Then I would love you dear with all my might

Because you're dynamite!

You do such big attraction

Chain reaction things to me

They oughta make you wear a sign of danger T.N.T.

Love me right hey! Baby let's make history tonight

The power of one hour of love's delight

Just knocks me out like dynamite!

You do such big attraction

Chain reaction things to me

They oughta make you wear a sign of danger T.N.T.

Love me right hey! Baby let's make history tonight

The power of one hour of love's delight

Just knocks me out like dynamite!

Because you're dynamite

Because you're dynamite
